

Thank You Baby

Delbert McClinton

Heart to heart talks and moonlight walks
Receiving money by mail
A fireplace with a view and being here with you
Honey, sure beats laying in that Fort Worth jail I'm so glad I found me 'cause with your love to surround me
I got a handle on a better point of view
And I wanna thank you, baby
And my mama wants to thank you too, alright Some things I can't mention than keep my attention
I love the way you move
It makes me wanna grin and then give in
To anything you want me to If I died in the morning it'll be alright
I ain't never gonna feel good again as I feel tonight
And I wanna thank you, baby
And my mama wants to thank you too, alright, here we go I've been wearin' it out before layin' it down
That's the way I been livin' too long
I just can't believe the change in me
Baby, since you came along I got no time for dyin' 'cause I just been born
And, baby, I swear it's true
I wanna thank you, baby
And my mama wants to thank you, too Yeah, I wanna thank you, baby
And my mama wants to thank you too
Alright, let's do it one more time I wanna thank you, baby
And my mama wants to thank you, too
Yeah, I wanna thank you, baby
And my mama wants to thank you too
