

Thank You Baby

Delbert McClinton

Heart to heart talks and moonlight walks

Receiving money by mail

A fireplace with a view and being here with you

Honey, sure beats laying in that Fort Worth jailI'm so glad I found me 'cause with your love to surround me

I got a handle on a better point of view

And I wanna thank you, baby

And my mama wants to thank you too, alrightSome things I can't mention than keep my attention

I love the way you move

It makes me wanna grin and then give in

To anything you want me toIf I died in the morning it'll be alright

I ain't never gonna feel good again as I feel tonight

And I wanna thank you, baby

And my mama wants to thank you too, alright, here we goI've been wearin' it out before layin' it down

That's the way I been livin' too long

I just can't believe the change in me

Baby, since you came alongI got no time for dyin' 'cause I just been born

And, baby, I swear it's true

I wanna thank you, baby

And my mama wants to thank you, tooYeah, I wanna thank you, baby

And my mama wants to thank you too

Alright, let's do it one more timeI wanna thank you, baby

And my mama wants to thank you, too

Yeah, I wanna thank you, baby

And my mama wants to thank you too
