

My Desire

The Yardbrooms

Lord we come
With our hearts wide open
Lord we know
You have made us one
Lord
We are waiting
Anticipating
We are creating
A place for you
Lord we come
With our hearts wide open
Lord we know
You have made us one
Lord
We are waiting
Anticipating
We are creating
A place for you
My desire
Is to see
A move of God
A move in me
My desire
Is to do
All the things
He's showing me
Let us create
Create a place
Release your faith
Releasing faith
For God to move
So we will see
The power of God
And we will know
That he is God
We open our hearts to you
Lord we come
With our hearts wide open
Lord we know

You have made us one

Lord

We are waiting

Anticipating

We are creating

A place for you

My desire

Is to see

A move of God

A move in me

My desire

Is to do

All the things

He's showing me

Let us create

Create a place

Release your faith

Releasing faith

For God to move

So we will see

The power of God

And we will know

That he is God

Let us create

Create a place

Releasing faith

For God to move

So we will see

The power of God

And we will know

That he is God

Let us create

Create a place

Releasing faith

For God to move

So we will see

The power of God

And we will know

That he is God
