

Let The Beat Control Your Body

2 Unlimited

Let the beat control your body
Let the beat control your body

Now let my beats control your body
The booming system which plays in places
Move your system, change the spaces
When I'm on a mic you can't refuse
No one ever came to preach, I came to amuse
Techno makin', no mistakin', never fakin'
Always breakin' it down, huh, to a party
Now let my beats control your body

Let my beats

Let my beat

Let the beat control your body
Let the beat control your body
Let the beat control your body
Now let my beats control your body
Let the beat control your body
Let the beat control your body
Let the beat control your body

My beat B E A T

It's my beat and it controls your body
It penetrates your brain
Without my beat you'll go insane
It's my beat and you can't break it
It's my beat and you can't fake it
It's my beat and you can't copy

Let my beat control your body
Down with the forces, it's how we go

The second to first, just for you to show
You just can't stand still but you gotta move
You feel the bass line, you feel the groove
My beat accepts you just as you are
Drives you away just like a fast car
It's my beat, it belongs to me
So let my beat control your body
Pow, pouch, pow, pouch
Bass in your face
Bass in your face
Supersonic motivated
Pow, pouch, pouch
Bass in your face
Bass in your face
Come on, come on, come on
It's time to move your feet, get on y'all
Let the beat control your body
Now let my beats control your body
Let the beat control your body, yeah
Let my beats
Let my beats
Bass in your face
Bass in your face
Let the beat control your body
