

# Roll Into One

## Bic Runga

If I could make you mine, we could spend some time  
Maybe you could come around in the weekend  
Summer's rolling by and we don't have much time  
Tell me all about what keeps you ticking We could sit in the sun, let the days all roll into one  
How could you take so long to decide?  
How would you know until you tried? Say what's on your mind?  
Don't be so unkind  
If you believe in stupid things like love We could sit in the sun, let the days all roll into one  
How could you take so long to decide?  
How would you know until you tried? We could sit in the sun, let the days all roll into one  
How could you take so long to decide?  
How would you know until you tried? Tried, tried, if you tried  
If you tried, if you tried  
La la la
