

Emigrate

Emigrate

Eagle flies across a flag
Bureaucracy is such a drag
Behold a pale horse tonight
The men in black are out of sight
She comes
He comes
We come
She comes
Across the oceans in my mind
Across the skies I left behind
A land of opportunity
A land to fill my destiny
Emigrate
Emigrate
Emigrate
I've been alone a long, long time
So what, I take what should be mine
I've searched the sea of empty eyes
And severed all my family ties
A mercenary feeds my soul
A plastic world, no getting old
A monkey wears, the age old crown
The other monkeys getting down
She comes
He comes
We come
She comes
Welcome
Emigrate
Emigrate
Emigrate
Walk through fear
Leave you, dear
Never wanted to create a tear
Walk through fear if you dare
Emigrate
Emigrate
Emigrate
Emigrate
