

Little Girl

Enrique Iglesias

Little girl kisses her mom
Tells her I love you holds on to her neck
Little girl doesnt have much
She walks with a smile, shes so full of lifeBut she cries in the night
strangle to hold on
No one can hear her
Shes all aloneThis little girl closes her eyes
All that she wants
Is someone to love
Someone to loveLittle girl, shes all grown up
Oh, shes getting famous, shes a big star
Little girl, fights with her mom
Cant believe money changed who she lovesAnd she cries in the night
strangle to hold on...
No one can hear her
Shes all aloneThis little girl closes her eyes
All that she wants
Is someone to love, oh, yeah
Someone to love, oh, yeahShe cries in the night
strangle to hold on
No one can hear her
Shes all aloneThis little girl closes her eyes
All that she wants
Is someone to love
Someone to love her, to love, to love
