

# Cadillac

## Miguel

[Miguel]

I've got love in my veins

I got life in my eyes

(Follow me, follow me, follow me...!)

I've got failure and ice

There's no need to think twice

(Follow me, follow me, follow me...!)

Most high, most fly

Who are they loving, I

Follow me, follow me, follow me

Yes I got what you need, turn that water into wine

Follow me, follow me, follow me

Hold on 'cause...Heaven's in the backseat of my Cadillac

Heaven's in the backseat of my Cadillac

Let me take you there

Let me take you there

Let me take you there

You there, you there, you there

Heaven's in the backseat of my Cadillac

Heaven's in the backseat of my Cadillac

Let me take you there

Let me take you there

Let me take you there

You there, you there, you there

Alright You're angelic every way

You shine like the moon

Just take my hand and we'll levitate not a moment too soon

Elevation, revelation, celebration baby

Elevation, revelation, celebration let me take you Heaven's in the backseat of my Cadillac

Heaven's in the backseat of my Cadillac

Let me take you there

Let me take you there

Let me take you there

You there, you there, you there

Heaven's in the backseat of my Cadillac

Heaven's in the backseat of my Cadillac

Let me take you there

Let me take you there

Let me take you there

You there, you there, you there  
Alright, oh, oh no That unicorn, that lush  
That savage baby, that rush  
Anything, everything  
Follow me, follow me, follow me  
That magical organic  
That rocking baby don't panic  
Follow me, follow me, follow me  
Everything, everything Heaven's in the backseat of my Cadillac  
Heaven's in the backseat of my Cadillac  
Let me take you there  
Let me take you there  
Let me take you there  
You there, you there, you there (Nothing but fine disco records man)  
That unicorn, that lush  
That savage baby, that crush  
Everything, everything  
That unicorn, that lush  
That savage baby, that crush (Everything, everything...!)
