

# Get On Out

## Soul Asylum

I gotta get on  
I gotta get on out  
All these worried troubled thoughts  
Gotta get on out of my head  
Gotta get on out of my head Will I be on the streets tomorrow  
Will I have to beg and borrow  
Will I have to go back to the job I left behind  
Could you still make it  
With a guy who never made it  
Would you look into my eyes if I were to go blind Gotta get on  
I gotta get on out  
All these worried troubled thoughts  
Gotta get on out of my head  
Gotta get on out of my head Now will you leave me for another  
Send me running back to mother  
Will I have the time to tell you how I really feel  
Am I just gettin' slower  
Or you just talkin' faster  
Do we need bad disaster to make it plain to see That all these worried troubled thoughts  
Gotta get on out of my head  
Gotta get on out of my head  
Out of my head  
Out of my head  
Out of my head Do I just feel like cryin'?  
'Cause I'm sick and tired of tryin'  
Tryin' to convince you this ain't how it has to be  
The ground you walk on's sacred  
The sky above awaits you  
So cast all your frustrations to the bottomless sea Gotta get on  
Gotta get on out  
All these worried troubled thoughts  
Gotta get on out of my head  
Gotta get on out of my head  
Out of my head  
Out of my head  
Out of my head
