

Several Shades Of Why

[J Mascis](#)

There's no peace, little comfort, no one's shoulder
Not a wrinklins of a time that made you colder
I'm not saying much I tried hard that's all I do
Tried and waited then got tired, that's about it

With my time

With my timeGot to wait this time

Why should I have time to answer?

Several shades of why

I can't go back, it's faster

Don't expect it 'cause the ending's a disaster

Nothing, nothing, nothing man, a little laughter

With my time

With my timeGone at it the wrong way

Thought I'd find out but I missed it

If I make it through I'll run and stop the twistin'

Way I steered us off'll lose it just to give in

Hell may not dwell on the dead

How about the living?

With my time

With my time
