

Moonlight Crush

Outshyne

Maybe it's just the summertime heat
that's got my heart playing tricks on me
With a couple of beers
And a good time atmosphere

Or maybe it's the way you tilt your head
When you laugh at some silly thing I said
Or your angel eyes
Whatever it is tonight

I've got a little moonlight crush
On you girl
A little bit star struck
Have a hard time covering up

How I'm feeling right now
Your pretty firefly silhouettes
Looking just about as good as it gets

You're such a beautiful little wreck
The way ya smiling at me
Yeah it might be love
Or just a little moonlight crush

I'm hoping by the way you took my hand
Means you wanna drift off
From the crowd and the band to somewhere else
All by ourselves

And let our kisses tell us what we got
Then you can tell me what you want
This night to be
'Cause at the very least

On you girl
A little bit star struck
Have a hard time covering up

How I'm feeling right now
Your pretty firefly silhouettes

Looking just about as good as it gets

You're such a beautiful little wreck
The way ya smiling at me
Yeah it might be love
Or just a little moonlight crush

That strap hanging off your shoulder
I can't help but get a little bit closer
I'd like to do this over
And over
And over

I've got a little moonlight crush
On you girl
A little bit star struck
Have a hard time covering up

How I'm feeling right now
Your pretty firefly silhouettes
Looking just about as good as it gets

You're such a beautiful little wreck
The way ya smiling at me
Yeah it might be love
Or just a little moonlight crush

Just a little moonlight crush
Just a little moonlight crush
