Lend a Hand

Ijahman Levi

If you should see me
Action like a child
Back to the age
When I was nine
Please come on
And lend a handIf I to free to see
What really lies
Ahead of me
With some love
Just lend a handLend a hand
To get myself together
Lend a hand
To make life a little easier
Lend a hand
If I'm still green
Still living in my world of dreams
With some love lend a handAs much as I a grown up man
Daily living some times get heavy
Please hold me on oh Lord
With a helping hand
If I'm looking cold and weary
Rag clothing covering me
With some love come on lend a hand
