Feel like the sky is the limit
And nothin come easy you gotta grind till you get it
They say the star life is addictive
And me im so high im flying defying physics
Im wearing hundred dollar draws no flaws
Wizzle on the hands free
Call young boss
Blackberry ringin
Sidekick buzzin got my money right cant tell me nothin
If I said I wasn't all in
I'd be lyin like a lady whos fallin
Chain sick and the watch face swollen
See me now wish id go back to the old him
But Wizzle wont change for the world
I live life fast any day could be your last
Blow ten stacks then go n get it back in a hour
Thats what the fuck I call Star Power lets goChorus:
They say you get out what you put in to it
So my alls what I give
And now I dont jus talk about the life of a star
Homie thats what I live
And the niggas that im wit husstle heavy
In your city, every state wit my Taylor Gang familyThey say you get out what you put in to it
So my alls what I give
And now I dont jus talk about the life of a star
Homie thats what I live
And the niggas that im wit husstle heavy
In your city, every state wit my Taylor Gang familyVerse 2:
Yuup
This good livin got me open

Make you fell like you took a hit of what I'm smokin
The high life
Yea thats my life
And it's possible to die twice
But you only live once
So ima live it up
Pop bottle after bottle rollin kush filled blunts
I feel like I've been chosen
And i dont fix it if its broken
I buy a new one
The way i blow hundreds
Make people say they sholdve never gave niggas money
If you was me I guarantee youd do the same thing
Cop anything when you want it
They say fames the most dangerous drug
I played wit now i cant get enough
And came up a customer
But now im the supplier
And thats what i call star power lets goChorus
