# Cosmic Evolution

## Captain Jack

Feel the vibes from outside, touch the blaze of emotion
Feel it raise to your mind
Feel the vibes from outside, touch the blaze of emotion
Cause you're one of a kind
Woohoh a cosmic evolution's here tonight
Woohoh a cosmic evolution's in your lifeWaves are flowing - Positions are uncertain
See the interference - Feel it next to your mind
Rays are approaching - Energy is increasing
Quantized absorption - Feel it next to your mindThe world is uncertain - Action ruled by chance
Try to feel control - You're one of a kind
Distance is connected - Faster than the light
Listen to the bell - You're one of a kind
