

# 10 West

## Dam-Funk

Well I'm back out on the road again lost among the city lights  
Were stepping it up harder just to make it to the show tonight  
With yesterday's antics still playing in my head  
Another day's upon us so let's do it all again It's just another town another days another year  
We got to wait 'til five o'clock before we crack a beer  
Somewhere it's got to be 5 o'clock, yeh thays what we say  
It's all just a game to keep ourselves sane Drink smoke drink smoke this is what we do  
Drink smoke drink somke playing it for you Born to roam here we go yeah  
Another city and another day  
The road is my home all alone yeah  
Out on the streets is where we gotta stay Well we barely see the light of the sun with all the midnight fun  
It's coming down on my head I feel it  
But the music is part of my soul  
So I jump back in headfirst my arms around it Outside tonight I don't think there's anything going on around  
here
