

Creepy

Blue Meanies

I'm feeling creepy
Creepy tonight
Crawling out of my skin Mom's in the bedroom
Dad's in there, too
Slip into my shoes Open the window
Step on the night
Under city lights Creep in the shadows
Creep on the night
Until the morning light When the sun goes down
And the moon comes up
Shadows hit the ground
City sings its song I creep through alleys
I creep down street
The creep's on the beat Slip through the fences
Test out the locks
Creep around the block Usual faces, usual places
Are in disguise
But some shine brighter
In the afterlight When the sun goes down
And the moon comes up
Shadows hit the ground
City sings its song
