Playing Along

Keane

At the start of the news day the fires begin
It words and in pictures but I'm not listening
I'm not taking it in
I'm gonna go to the country where nothing goes on
Gonna bury my head where I can't hear the sound of bombs
Playing along
Me, I'm just playing along
You and I, so many good people all
Just playing along
I'm gonna go to the bar where the jukebox is on
Gonna shut out the noise with a rock 'n' roll song
Playing along
I'm gonna turn up the volume, I'm gonna turn up the volume
I'm gonna turn up the volume till I can't even think
Tell us a tale of the proud and the free
Sing us a swing time American melody
From 'Follow The Fleet'
Me, I'm just playing along
You and I, a billion people all
Just playing along
I'm gonna turn up the volume, I'm gonna turn up the volume
I'm gonna turn up the volume till I can't even think
I'm gonna turn up the volume, I'm gonna turn up the volume
I'm gonna turn up the volume till I can't even think
I'm gonna turn up the volume till I can't even think
I'm gonna turn up the volume till I can't even think
I'm gonna turn up the volume till I can't even think
I'm gonna turn up the volume till I can't even think
I'm gonna turn up the volume till I can't even think
I'm gonna turn up the volume till I can't even think
I'm gonna turn up the volume till I can't even think
