

# Snot

[Alex G](#)

I saw you  
Sparkling  
And swerving  
Under him  
I know now  
What's right and wrong  
And I know when  
To turn that off  
This strife me it can buy me  
I need you way before you said  
I love you  
And 666  
I want you  
To make me sick  
I love you  
With my snot  
I want it  
If he's all wrong
