

Zodiac

Ne-Yo

Now I don't mean to be rude
But I really don't care what your sign is
I'm trying to get to know you
Now let me get it straight[Verse 1]I've never been one to lick up mockery
If anything anyone else believes
If it makes you happy then yes
Do you
But personally
I don't waste my time
Being concerned with your sign
Sugar I truly could care less
So true[Pre-Chorus]Tell me on your inside you're as cool as a gentle breeze
But truthfully what's that information
Really gonna do for me
Wanna know what makes you laugh
What makes you cry
I don't care about every other person
That was born in July
If that's even right[Chorus]I don't give a damn about your zodiac
I'd rather get to know you
Baby I don't care
I don't give a damn about your zodiac
I'd rather get to know you[Verse 2]She said hi
I'm Lisa
I'm a Virgo
I turned around and said so
Great to know
But really I don't care
She regained her composure
And said what's your sign
I'm a Libra but never mind
I'm feeling you
Let's go somewhere[Pre-Chorus]Tell me on your inside you're as cool as a gentle breeze
But truthfully what's that information
Really gonna do for me
Wanna know what makes you laugh
What makes you cry
I don't care about every other person
That was born in July

If that's even right[Chorus]I don't give a damn about your zodiac
I'd rather get to know you
Baby I don't care
I don't give a damn about your zodiac
I'd rather get to know you[Verse 3]I don't care
About that there
Let's get this clear
I wanna know you
Wanna get to know
You personal
Not astrological
I wanna know you
Wanna get to know you[Chorus x2]I don't give a damn about your zodiac
I'd rather get to know you
Baby I don't care
I don't give a damn about your zodiac
I'd rather get to know you
I don't give a damn about your zodiac
I'd rather get to know you
Baby I don't care
I don't give a damn about your zodiac
I'd rather get to know you
