

Clock Stops

Hamilton Park

I'm sorry damn I was wrong
I made a big mistake
Now I'm alone
Caught in my mess, used the wrong head
Sleeping around just gone give it my best
Another night on the couch I can not do it
Kickin' myself like damn you blew it
I was caught sleeping my phone was unlocked
She found it in the kitchen

[Chorus]
Now my clock stop my life stands still
Everyday that she walks out that door
Cause I don't know if she coming back
Girl, we can't do this no more

Damn I was stupid, why did I do it
I should of just come home
Cause ya had dinner waiting
But my boys they were hating
I should of left her alone
Another night on the couch I can not do it
So I kick myself damn you blew it
I was caught slipping, damn I was trippin'
My phone wasn't locked but
She found it in the kitchen

[Chorus]
There's only so many words I can say
To prove to you that
I've changed my ways
But now I'm back on bending knee
Bragging you baby please

Now my clock stop my life stands still
That day that she walks out that door
Cause I don't know if she coming back
Girl, we can't do this no more
