Complicated

Le'Andria Johnson

lead 1: saying you love me comes easy showing you love must be hard my soul can't take another broken heart why do you say you love me when you know you really don't mean it is lust the only factor cause love I just don't see it cause love
chorus:love is complicated(love)love is complicated
lead 2:so what you waited for love don't live here no more I've done all I can do but love you just don't do my love will stand in the mist of the storm can you hear me calling from a broken wall cause love (chorus)
I don't know why love is
bridge:oh listen here, loving you with all my heart always knew we will never part but we both know love don't come easy that's why love is complicated love is complicated (oh) I really want to know why love is so
