

# The Sun Has Turned to Black

## Electric Wizard

The earth torn from its path by meteoric pass  
Showered by debris  
Continents crumble, our cities funeral pyres  
Crash into the seaThe sun has turned to black  
No turning back  
They hide amongst the stars and waitReaper's shadow cast across the aftermath  
We cannot escape  
Everlasting night, return to pagan rites  
The old ones rule supremeThe sun has turned to black  
No turning back  
They hide amongst the stars and waitThe earth torn from its path by meteoric pass  
Showered by debris  
Everlasting night, return to pagan rites  
The old ones rule supremeThe sun has turned to black  
No turning back  
They hide amongst the stars and wait
