

# Payback (feat. Kevin Gates & Future)

Juicy J

I know something you don't that's me coming for you  
You want war, we got war, we just wanna warn you I know something you don't that's me coming for you  
You want war, we got war, we just wanna warn you War for war, bodies that hit the ground  
You ready for us, 'cause its about to go down  
Push 'em to the left, push 'em to the right  
Load them choppers up, hit 'em on sight  
Never turning back, I've done been in hell and back  
Me running out of guns, nah never heard of that  
I ain't never ran from a gunfight  
This is you and me Mano Y Mano your damn right Don't act like you don't know  
Know what I came for  
Too late to turn back  
This is the payback  
You take one, I take one  
You can't hide you can't run  
Too late to turn back  
This is the payback Respiratory begging for relief, I don't let 'em breathe  
Going hard I'm my own boss, many ain't believe it,  
A feeling not an item, appearing up out of thin air  
Conquer everything that's in front of me, now they under me  
Rush to lead and respond, they strayed away how a tunnel be  
Took a leap of faith bungee cord about to give out  
Nowadays whatever you say you gotta live out  
Altitude have a parachute failure we got a problem  
Grow a set of wings or die when you hit the bottom  
Never prayed to god, but never too late to try him  
Shots fired, Allen Iverson in the league  
They say I ball hog and I'm not a part of the team  
Breadwinner with these winners, built the regime  
Taliban weapon in hand, kill everything  
Amphetamines alter the state of a better means  
I'm beautiful but known for the dope like Medellin Don't act like you don't know  
Know what I came for  
Too late to turn back  
This is the payback  
You take one, I take one  
You can't hide you can't run  
Too late to turn back  
This is the payback Don't act like you don't know

Know what I came for  
Too late to turn back  
This is the payback  
You take one, I take one  
You can't hide you can't run  
Too late to turn back  
This is the paybackDressing all black like a funeral  
Murder, homicide wanna ride get residuals  
Living on fire for residuals  
365 when I grind for residuals  
45 magnum in the van with 'em  
Ratta tatta tat I let the blam hit 'em  
I scream fuck the whole world and put a bomb in it  
Finger on the trigger tryna put my whole arm in it  
I just want revenge  
I just want revenge  
We get it poppin' everyday  
They took away my happiness, they try to take my head awayDon't act like you don't know  
Know what I came for  
Too late to turn back  
This is the payback  
You take one, I take one  
You can't hide you can't run  
Too late to turn back  
This is the paybackDon't act like you don't know  
Know what I came for  
Too late to turn back  
This is the payback  
You take one, I take one  
You can't hide you can't run  
Too late to turn back  
This is the payback
