Past

Abject Object

break every moment we had
smile back at old needs
throw all the misery out
let's plant some new seedsit's over, just leave it alone
and lean back
give it a rest
just let it pass
'cause it is so hard to forgetthe past, the past
it is hard to understand
but it tells me that
there is nothing to regrethear me once more
I can't fix this
and I won't wait
'till I lose myself
hear me once more
I can't fix this
and I won't wait
'till I lose myself
'till I lose myselfit's over, just leave it alone
and lean back
give it a rest
just let it pass
'cause it is so hard to forgetcaught by a dazzling sound
leads me towards you
making me realise
that I don't want toit's over, just leave it alone
and lean back
give it a rest
just let it pass
'cause it is so hard to forget
hear me once more
I can't fix this
and I won't wait
'till I lose myself
hear me once more
I can't fix this
and I won't wait
