

# Past

## Abject Object

break every moment we had  
smile back at old needs  
throw all the misery out  
let's plant some new seedsit's over, just leave it alone  
and lean back  
give it a rest  
just let it pass  
'cause it is so hard to forgetthe past, the past  
it is hard to understand  
but it tells me that  
there is nothing to regrethear me once more  
I can't fix this  
and I won't wait  
'till I lose myself  
hear me once more  
I can't fix this  
and I won't wait  
'till I lose myself  
'till I lose myselfit's over, just leave it alone  
and lean back  
give it a rest  
just let it pass  
'cause it is so hard to forgetcaught by a dazzling sound  
leads me towards you  
making me realise  
that I don't want toit's over, just leave it alone  
and lean back  
give it a rest  
just let it pass  
'cause it is so hard to forget  
hear me once more  
I can't fix this  
and I won't wait  
'till I lose myself  
hear me once more  
I can't fix this  
and I won't wait
