Take Me

[Urge Overkill](#)

I just don't really need it like I don't need you
Yes, I don't really need it and be mean to you
Not long for this life, not long for this world
Woah, t-t-take me, take me back again
I'm not your college boyfriend, I ain't your lover too
I'm happy when I ignore that 'cause I've been playin' the fool
You can say when the song is over, it's over
Not long for this life, not long for this world
Woah, t-t-take me, take me back again
I just don't really need it like I don't need you
Yes, I don't really need it like I've been needing you
You can't sing when the song is over, it's over
Not long for this life, not long for this world
Woah, t-t-take me goddammit, take me back again
Not long for this life, not long for this world
Woah, t-t-take me, take me back again
Take me back again, take me back again
