

Werewolf Women of the SS

Rob Zombie

They are the black widows, baby
Off the street of Berlin
Pure wolf is the mission
She-Devils of sin They're in control now
Strasser, you are through
You are gonna worship
Everything that they do Werewolf women of the SS Howl, baby, howl
Howl, baby, howl Welcome to number 13
This is where it begins
Up ahead you will suffer
Stripping off your skin Here come the ladies
Super women of death
Gretchen and little Eva
Pure blood on their breath Werewolf women of the SS Howl, baby, howl
Howl, baby, howl Werewolf women of the SS Howl, baby, howl
Howl, baby, howl
Howl, baby, howl
Howl, baby, howl
