

Boomerang (feat. Nile Rodgers)

Emin

Girl you like my reflection.
You keep coming back around.
What I thought was over.
Look at us now. Said our goodbyes but.
Never really felt that this was done.
Now your body burning like the Sun. You keep coming back into me.
Repeating our history.
Your love is like a Boomerang. Your touch your Silhouette.
Pictures burned in my head.
Your love is like a Boomerang. 3rd times a charm girl.
This thing is all worked out.
Anything you got it you got it now.
Panamera waiting.
Everywhere I wanna go with you.
Spark this old flame your lips make it new. You keep coming back into me.
Repeating our history.
Your love is like a Boomerang. Your touch your Silhouette.
Pictures burned in my head.
Your love is like a Boomerang. I can see the way you wanna let go.
Anything you want cause it's out of control.
Every time you leave you come right back here.
Right back to me again and again. You keep coming back into me.
Repeating our history.
Your love is like a Boomerang.
Your touch your Silhouette.
Pictures burned in my head.
Your love is like a Boomerang. You keep coming back into me.
Repeating our history.
Your love is like a Boomerang. Your touch your Silhouette.
Pictures burned in my head.
Your love is like a Boomerang. You keep coming back into me.
Repeating our history.
Your love is like a Boomerang.
