True Love (Speakeasy Vocal)

Aquanote

I wanna trust this feelin' that hit me just now
Let it take me away
I look in your eyes, I see it, you want the same
How can we make it stayOh, I want it every day and every night
And I need it close for the rest of my lifeTrue love
True love
(It only up to me and you, to make true love)
True loveIt's getting stronger, I'm reeling, I'm flying so high
Come on and follow me
It's not complicated, just do it, give it a try
This love could set us freeTrue love
(Oh, you know it's true)
True love
(That it's only up to me and you)True love
(I gave it all my heart)
True love
(You know it's true that it's only up to me and you)
(To make true love)True love
True loveIt's like walking on clouds in a dream, true love
It's like magic you really believe, true love
Like you and I have found, true love
It's like you and I have found, true loveTrue love
(It's like you and I have found, true love)
True love
(You and I have found, true love)True love
(Pour out this love, yeah)
True love
(Woh, pour out this love)
(We'll pour out this love)True love
