

You Hurt Me

Donnell Pitman

I gave you love
And you gave me hurt instead
You hurt me, baby, you hurt me

The things you said
And the things you didn't say
Don't ya know x3
It hurt me

Girl, I would have given you my last
But in return you left me
Left me there

Oh what'd ya say do
Now you say you no, you dont
My my, my my

Yea, you whispered sweet nothings
in my ear
Saying we would be together
All our years

And you walked away
And I was left without you

You hurt me
You said you were lonely
But your phone was always busy

And when I knocked at your door
You said to me
Who's calling at this time of night
Girl, girl it's me

Girl, you hurt me
