# 4

## The Hummers

Get up get up now (8x)free yourself from yourself 2x
Locked up inside you,
like the calm beneath castles,
a cavern of treasures,
that no one has been to.Let's go digging. (2x)
Bring it out to take it back in.You won't do what you'd like to do.
Laaay back and let me show you another way.
kill what you want to,
take what's left and eat it.
Take all or nothing.
just too short to push it awaaaay.Take it all in. (2*)All the way in. (2x)Let it go in. (2*)You won't feel what you'd like to feel.
Lay back and let me show you another way.kill what you want to,
take what's left and eat it.
Take all or nothing.
just too short to push it away.Knock me down I'll just come back running,
knock you down, it won't be long nowAll the way in. (4x)
WAY IN!!!
I'll kill what you want me to,
take what's left and eat it.
Take all or nothing.
just too short to push it awaaaay.Take it up, take it up higher.
4 degrees now, 4 degrees warmer.Give in now (2x),Let ME!!! In.You'll like this in,
this brings us out.
You'll like this.
It brings us closer than,
dying and, cancer and, crying.Why don't you take it all. Take it. Want you to take it all. Take it. Take it, c?mon. C?mon take it all. Take it on up. Won't you take it all. Take it. Want you to take it. Take it all. Want you to take it. Take it. Won't you take it. Take it. Take it. Take it. Take it. Mmmha mmmha mmmmmm whooooa!kill what you want to,
take what's left and eat it.
Take all or nothing.
just too short to push it.Just like that. (2x)
Just like!
