

Last Time

Nico & Vinz

I see the stars in your eyes
And you know you've lost your disguise
When I hit that with a bang
When I'm in that you're insane, oh
(Work it, work it, work it)

[Pre-Chorus:]

In a cave, on the dock, on the roof, everywhere
Under the clouds when it rains, I don't even care
Nothing can keep me from your loving, no way
Climb a mountain long as we got peace
I can please you on a desert, the bottom of the sea
No matter where we are tonight we're making love

[Chorus:]

Like our last time, like our last time
Like our last time, like our last time, last time

You got what I need, yo, I know it might sound crazy
But I'm drowning in your sea and I don't want nobody to save me
There's something in your eyes making it hard for me to leave
So hard for me to leave, you make it too hard for me to leave
(Work it, ride it, work it)
You make it hard for me to leave
(Work it, ride it, work it)
You make it hard for me to leave
Dance on top, oh baby, just dance on top, on top
Dance, don't stop, oh baby, let's dance all night, all night

[Pre-Chorus]

[Chorus]

[Bridge x4:]

I call it two by two
Good luck, babe, me and you

The way you call it
The way you got me parapampam, parapamapam
The way you call it

The way you got me parapampam, parapamapam

Tonight we're making love

[Chorus]

[Bridge x4]
