Call Me Up

Rick James

Hi, this is Natalie
Leave a message after the beep
And I'll give you a call back
Remember, if you don't leave a message
You never called
Thanks
[Beep]Ayo Nat what?s up girl
I aint heard from you in a while
Just tryna see what?s up witcha girl
Get with me man
Holla at me
Message will be saved for 14 days
I got your message today
I was happy to hear your voice
Automatically saved
When it comes to you I had no choice
I must act like (I don't wanna call you back)
I stayed up last night (Waitin for the phone to flash)
It wouldn?t be right if I call so fast
Let a few hours past see if my patience could last
Every time you call me up I'm playin hard to get
I really wanna pick up I keep hittin the end
I don't know what to say you got me speechless
Leave a message babe
Maybe at a better time when I can get on the line
And tell you what's on my mind
Then we can conversate maybe we can conversate
Baby I know you might think that I'm just (Playin)
You don't see the smile I get (Baby)
When the phone rings, when you call me
I really wish that you would come and hold me
Baby I know you might think that I'm just (Playin)
You don't see the smile I get (Baby)
When the phone rings, when you call me
I really wish that you would come and hold me
No it aint my style to have you guess how I feel about you
I'm always thinkin about you I'm always talkin about you
Don't wanna let you know
I have the words I end up all jittery

And all the words I can't control what you do to me

All it takes is one little thing
I hear a ring, I see your name
Every time you call me up I'm playin hard to get
I really wanna pick up I keep hittin the end
I don't know what to say you got me speechless
Leave a message babe
Maybe at a better time when I can get on the line
And tell you what's on my mind
Then we can conversate maybe we can conversate
Baby I know you might think that I'm just (Playin)
You don't see the smile I get (Baby)
When the phone rings, when you call me
I really wish that you would come and hold me
Baby I know you might think that I'm just (Playin)
You don't see the smile I get (Baby)
When the phone rings, when you call me
I really wish that you would come and hold me
Here's how I'm gonna tell you
I'm gonna call you up tonight, tonight, tonight, tonight
Be up-tight and honest with you
If Ima do it tonight, tonight, tonight, tonight
No more holdin back or actin shy
I'm gonna call you up tonight, tonight, tonight, tonight
Let you know you're the one I like
If Ima do it tonight, tonight, tonight, tonight
Baby I know you might think that I'm just (Playin)
You don't see the smile I get (Baby)
When the phone rings, when you call me
I really wish that you would come and hold me
Baby I know you might think that I'm just (Playin)
You don't see the smile I get (Baby)
When the phone rings, when you call me
I really wish that you would come and hold me
Baby I know you might think that I'm just (Playin)
You don't see the smile I get (Baby)
When the phone rings, when you call me
I really wish that you would come and hold me
Baby I know you might think that I'm just (Playin)
You don't see the smile I get (Baby)
When the phone rings, when you call me
I really wish that you would come and hold me
