

# No Respect

## The Busters

Respect  
 Always everybody looking for some  
 Respect  
 Who do you think you're gonna get it from? Respect  
 Anybody here deserving of none  
 Respect  
 So tell me, what makes you think  
 You're not the one No respect, no respect, none  
 No respect, no respect, none  
 No respect, no respect, none  
 No respect, no respect, none Respect  
 Why be concerned with public adulation  
 Respect  
 Pat on the back crying for attention Respect  
 Finding out what it really means to me  
 Respect  
 Honor comes only after humility No respect, no respect, none  
 No respect, no respect, none  
 No respect, no respect, none  
 No respect, no respect, none No respect, no respect, none  
 No respect, no respect, none  
 No respect, no respect, none  
 No respect, no respect, none No respect, no respect, none  
 No respect, no respect, none  
 No respect, no respect, none  
 No respect, no respect, none No, no, no, no, no  
 No respect
