Rufus

Hollowgram

Rufus, the giant silver Labrador
Is standing in my hall
Rufus, Rufus Labrador
Ten feet tallAre you coming to get me now?
Are you coming to get me now?
Are you coming to get me now?
To take me homeHe found me in the catalog
One day he made a call
He said that he was coming now
To take me homeAre you coming to get me now?
Are you coming to get me now?
Are you coming to get me now?
To take me homeI know exactly how you feel
You can't believe that it is real
I know exactly how you feel
You can't believe that it is real
Yeah, yeah, yeahYeah, I know
I've got ten little fingers to hold on as we go
Yeah, I know
I've got ten little fingers to hold on as we goRufus is a mighty one
He's going right into the sun
He's flying like a bullet from a gun
He's going right into the sunRufus is a mighty one
He's going right into the sun
He's flying like a bullet from a gun
He's going right into the sunI am going far beyond
Far away, you know
And I'm so sad you couldn't come
To where I'm going toI am going far beyond
Far away, you know
And I'm so sad you couldn't come
To where I'm going toIn my heart
In my heart, still a kid
In my heart
In my heart, still a kid
