Reset

Big Boi Feat Khujo Goodie & Cee-Lo

Ooh, yeah, whoa
My pulse is getting fast, my heart is gonna crash
Hey, I got something to say to you
We've been on overdrive
Maybe we should take some time apart
I'm always on the road, I'm putting on a show
I know you really try to keep up with me
Baby, we're compatible
But you must be sick of all the bull I pull on you
Now I'm having second thoughts about us
I think I like it like it was
I know I shut the system down
But now I wanna bring it back up
We need a reset, don't wanna regret
Not making up with you
You and I are fading from the screen
Can we prevent a freeze?
We're losing power and we're spinning down
Suddenly back up, dedicated now
We crashed but we can turn it around
Round and round after a reset
Start it up again, yeah, start it up, oh
I'm tired of the nights without you by my side
We only seem to text and e-mail
So you come on the road
Maybe we don't have to fall apart
It's working for awhile but I see through your smile
This isn't the life you signed up for
You tell me it'll be okay as you board a different plane
Back to where you were
Now are you having second thoughts about us?
I know that I'm still in love
I know you shut the system down
But don't you wanna bring it back up?
We need a reset, don't wanna regret
Not making up with you

You and I are fading from the screen
Can we prevent a freeze?

We're losing power and we're spinning down
Suddenly back up, dedicated now
We crashed but we can turn it around, oh
Round and round after a reset
Hey, hey, pakinggan mo naman ako
Hey, hey, I think this is the way na dapat gawin
Reset, sana naman ika'y sang-ayon din
To all the things that I'm gonna say
I wish ika'y pumayag din
Mag-aagree ka ba? If I tell you that
Magsimula tayo para tayo'y sobrang happy na
We should reset all this
Ibalik ang nakaraan
Start it up, start it up, oh baby
Start it up again, oh
Start it up, start it up
We need a reset, don't wanna regret
Not making up with you
You and I are fading from the screen
Can we prevent a freeze?
We're losing power and we're spinning down
Suddenly back up, dedicated now
We crashed but we can turn it around, oh no
We need a reset, don't wanna regret
Not making up with you
You and I are fading from the screen
Can we prevent a freeze?
We're losing power and we're spinning down
Suddenly back up, dedicated now
We crashed but we can turn it around
After a reset
Start it up again
Start it up, start it up, ooh
Don't wanna fall apart again
