# Surrounded

## BT

I look up, I look down
But all I see is you
I look left, I look right
But all I see is youYou got me surrounded
I tried everything I can
But I know that you're my own way out
You got me surrounded
My love
I ain't fighting anymore
And I know that you're my one way outI look back
I looked in front of me
And all I felt was this
So I run away and I hide away
But all I felt was thisAhh ohh
Ahh ohh ohh
Ahh ohh
No more
You got me surroundedYou got me surrounded
I tried everything I can
But I know that you're my own way out
You got me surrounded
My love
I ain't fighting anymore
And I know that you're my one way out
If there's another way out, I ain't looking for it
If there's another way out, I ain't looking for it
If there's another way out, I ain't looking for it no moreYou got
You got me surrounded
You gotYou got me surrounded
I tried everything I can
But I know that you're my own way out
