

# When All Light Dies

## Jedi Mind Tricks

### Intro

I pop a pill and zone, my voice alone will fuckin keel ya bones  
The AR15 beam leave you still in stone  
Im working 24/7 while you chill at home  
Im on th block with my people where the killaz roam  
Im in the killa zone, where police can trap me  
Im ready to go to war with them like we Iraqi  
We in the last days, only darkness passes  
Nomore pure air only bloody muddy ashes  
Yeah! You need to recognize the god of sith  
Cuz i was born inside of Egypt near the Gaza Strip  
Dont make me cock the fifth, ill put the flame to em  
And thug it out like the Israelis and Iranians  
Remember when i put the pen to pad  
When i heard star wars bala kim shabaz  
And in the lab everything waz constructed with stoupe  
And yall know that noone fuckin with us as a group

### Chorus

When all the light goes out where will you be  
When the darkness comes what will you see  
When the light goes out

### Repeat

### Chorus

Im a cannibal corpse, 38 snub splatter ya thoughts  
Peel ya skin off of ya body like animal clothe  
Im the reason for the carthage in hannibals force  
Im the reason for the carnage and paribles lost  
And ill put the heater right where ya lungs at  
And none of yall would be around if i could bring pun back  
You want the hardcore vinnie he brung dat  
Along with the 44 millitant gun rap  
I break bread with the brothers i trust  
Cuz i know that if im ever in some trouble they bust  
You could never be us, we too raw for the rap now  
And anybody with a tape recorder can rap now

I pull the 12 gauge shotty you back down  
And then the last thing you hear is the gat sound  
Im from the city where they frmed Nu Mia  
We gone break em out run up with the flames and heaters

Chorus

I carry heavy fists, im a biological terrorist  
You aint been in war then you dont know what terror is  
You try to help people but do nothing likr therapists  
Its basic rules to the game couzin you never snitch  
Or you can see the type of lead that my beretta spits  
Or take you to the torture chamber and behead the bitch  
Yeah! Ill put ya body to the blades and choppers  
And teach you bout the disruptive symbol of chakras  
If you believe what they tellin you the beast in them won  
Thats why i speek about survival and need for a gun  
I stand for what them thugs is reppin  
But they dont know the government is using drugs as weapons  
And drug injections was taught by the profiets before  
About the calvary of shadowy profiets of war  
Its ? so i spit it at different degrees  
Buthe inner earth holds mre water than seas
