

Stood For Nothing

Sick of It All

Desperate Little You
We've seen the act and it won't do
Helpless Pathetic you
It's always something, It's always something Stood For Nothing [x4] Show some pride, show something
You got no heart, you got nothing
Help me stay true so I'll never be like you Stood for Nothing [x4]
(you stood for nothing) It's all good I still believe in myself, humanity
It's all good I still believe - that's the way it's gotta be Stood For Nothing [x3] - Piss in the dirt
