Picture Pains

Grammatrain

bones in mama's brains
bones in sister's brains
baby thinks about butterflies
sleeps through all the pain
grampa is crying on the wall
gramma died and left us all
mama hangs pictures in the hall
the angel's much to small
ooh your heart beats my blood in my veins
tell me who am i to you, what's inside...
what's inside your brains(i love you)
spiders on brothers mind
runnin' 'round all the time
wheels make stairs, stairs that slide
who is that outside
a girl with her raincoat on
wondering why her daddy's gone
flower, flower in the lawn
sings her lonely song
