

# Antidepressant

Lloyd Cole

Im serving 12 to 15, working the coffee machine  
Ive got a license to fly underneath the radar  
Shes about 50 feet north, 'As Seen On TV' store  
I know shes gonna tune me in sooner or later  
With my medication, I will be fine  
With my medication, I will be fine  
With my medication, I will be, I will be fine  
I said, Im trying to write my novel  
She said, Neither am I  
And either way I saw you reading 'No Depression'  
Youre doing nothing, Ill come over  
Well watch '6 Feet Under'  
And then well maybe get around to your condition  
With my medication, I will be fine  
With my medication, I will be fine  
With my medication, I will be, I will be fine  
First shes gonna tire of my fixations  
Then shes gonna tire of my face  
Im gonna need a new affectation  
Im gonna need a new one everyday, everyday  
With my medication I will be fine  
With my medication, I will be fine  
With my medication, I will be, I will be fine
