

# Fireworks

## Omi

Ooh

Oh yeah yeah

Said she wants more than fireworks tonight

More like than a stick of dynamite

And everyone from next door can hear the explosions

Plus she wants more than fireworks tonight

More like than a stick of dynamite

And everyone from next door can hear the explosions

'Cause she wants more thanThe ordinary, she request the extra-ordinary

The lingerie, the bra with the strawberry

Missus kisses on and she say "How many?"

Beside the ? She say I'm more than merry oh

A stick of dynamite she said she want berry

It's a deep and creep in her belly

So tell me if you're ready for some loud nights

The neighbour's can't even hear them anywaysSaid she wants more than fireworks tonight

More like than a stick of dynamite

And everyone from next door can hear the explosions

Plus she wants more than fireworks tonight

More like than a stick of dynamite

And everyone from next door can hear the explosions

'Cause she wants more thanShe said champagne with some petal of roses arouse me

But I know this is mostly explosive

That's why she grab me and pull me closely

And say "Omi, you the best and you deserve a trophy"

Know that you are mine

I get to blow your mind like a landmine

Don't worry, I'm a really nice guy

Plus we need one stick of dynamite to break up your neighborsSaid she wants more than fireworks tonight

More like than a stick of dynamite

And everyone from next door can hear the explosions

Plus she wants more than fireworks tonight

More like than a stick of dynamite

And everyone from next door can hear the explosions

'Cause she wants more thanIt's like a millennium countdown

For all the New Year's to come around

A minute to 12, we're here by ourselves

Envision us as the night down

We'll say five, four, three, two, one

We'll be disturbing everyone  
It's like World War I  
Gathering for the explosion Said she wants more than fireworks tonight  
More like than a stick of dynamite  
And everyone from next door can hear the explosions  
Plus she wants more than fireworks tonight  
More like than a stick of dynamite  
And everyone from next door can hear the explosions  
'Cause she wants more than fireworks tonight  
More like than a stick of dynamite  
And everyone from next door can hear the explosions  
Plus she wants more than fireworks tonight  
More like than a stick of dynamite  
And everyone from next door can hear the explosions  
'Cause she wants more than
