Learn To Live Again

Wet

How does it feel when you don't have a remedy?
How do you fight when the dream's just a memory?

Oh, give me a sign
Come on take my hand let me take the lead
I'm gonna let the world shine a light on me
I'm gonna learn to live again
I'm gonna let the world shine a light on me
Before it all comes to an end
I'll learn to live again

Where is the truth when the lies always seem to win?
Where is the line that we draw how do we begin?
Oh, show me a sign
Show me what you've got I've got what you need
I'm gonna let the world shine a light on me
I'm gonna learn to live again
I'm gonna let the world shine a light on me
Before it all comes to an end I'll learn to live again

It's time to set the world on fire
It's time to make the world believe again
The hurt, the pain, it's time to say goodbye

Come on and show me a sign
Show me what you've got I've got what you need
I'm gonna let the world shine a light on me
I'm gonna let the world shine a light on me
I'm gonna learn to live again
I'm gonna let the world shine a light on me
Before it all comes to an end ill learn to live again
I'm gonna learn to live again
I'm gonna let the world shine a light on me
Before it all comes to an end I'll learn to live again
I'm gonna learn to live again
