Goodbye My Love

Audrey Scott

You look away from me again
There's really nothing to explain
Feel it in your kiss
I guess this is good-bye my love
The way I feel don't have a name
The days and nights so filled with pain
Thought that I would stay
But I gotta say good-bye my love
You used to laugh and say
If you play, play for gold
I didn't know that I would lose my heart
And soul, I didn't know
I won't regret the time we had
I'll think of you and I'll be glad
But this is the end
One last kiss and then good-bye my love
