

# One Way Trip

## Lil Wayne Feat. Kevin Rudolph

Uh, yeah, uh, yeah

Verse 1:

Beat the beat up 'til the beat get punch drunk  
Drown in my flow, motherfucker bring your swimmin' trunks  
Everybody say they just do it, well I just don't  
Times do change, motherfucker but the gun don't  
Woke up this mornin' with my dick to the ceiling  
Fell asleep with another chick from my building  
Kick her ass out and have breakfast like a motherfucker  
I'm with another bitch by supper

Yeah

Me and hate, that's an odd couple  
You niggas fake, you wouldn't pop bubbles  
You can act stupid, bitch I'm dumber  
And T. Barker is my motherfuckin' drummer

(Chorus: Kevin Rudolf)

I'm fallin' down a landslide on a one way trip to you  
You want me to take you for a ride  
Well let's see what you can do  
And it feels like uh, uh uh uh uh  
And I know just what to do  
Cause I'm fallin' down the landslide  
On a one way trip to you

(Verse 2)

I've been doin' this shit  
And you know what they say about the shoe if it fit  
Have a ball 'till I fall though

And if I die today I bet the world end tomorrow  
It's fucked up how you ain't never mean  
And I got blind money, money you ain't never see  
And only in the mirror is where you find a better me  
I make money and my fingers make the letter B  
I'm very sick, very sicker than you  
And when I play sick, I'm Jordan with the flu  
Then I become a motherfucker,  
And my nigga Travis Barker is my drummer motherfucker

(Chorus)

(Verse 3)

Uh, I get better with time, and time is forever  
So just sit back and watch the time get better  
So check your watch, I'm strong as scotch  
Papa was a Rollin' Stone, I was born to rock  
Tell it like it is, shit, I don't know when it isn't  
To beat or not to beat, shit, I don't know my decision  
I don't know how I made it for this long in this condition  
Cuz my flow so sick I should have died in the first verse  
This the Dr. Carter with my hand up a nurse skirt  
Suck me like soup and I'mma eat you like surf-n-turf  
Just let me know when you're comin'  
And my motherfuckin' nigga T. Barker keep drummin'  
Let's go  
(Chorus)  
On a one way trip to you, one way trip to you
