

Mainline

Kiss

You know that it's easy, so come on and please me I want you

I'm needin' some lovin', I'm hot like an oven, it's so true

You know what I want you to do

So baby, won't you let me on through, yeahMainline, baby won't you give it to me one time

Mainline, baby won't you give it to me one timeI know you could use me, so please don't refuse me, oh, love me

You've got to start givin' and baby, stop livin' above me

You know what I want you to do

So baby, won't you let me on through, woah, yeahMainline, baby won't you give it to me one time

Mainline, baby won't you give it to me one timeMainline, baby won't you give it to me one time

Mainline, baby won't you give it to me one timeYou know that it's easy, so come on and please me I want you

I'm needin' some lovin', I'm hot like an oven, it's so true

You know what I want you to do

So baby, won't you let me on through, yeahMainline, baby won't you give it to me one time

Mainline, baby won't you give it to me one time

Mainline, baby won't you give it to me one time
