

# G Face

## Orgy

Don't look so down and out  
Built your house  
You burned it down  
You're not so innocent now (now)  
Just can't wait to blow this place  
Feeling like a basket case  
Yeah, we play  
Replay  
Let me see your G FaceUnderneath the broken gown  
Live so solid  
Broken down  
Somehow you're living a dream  
Just like that you're lost in space  
Bitch-slapped in your poker face  
Yeah, we play, replay  
Let me see your G faceThrow your tips on the table  
And let it ride  
When the sun comes up  
We won't remember tonight  
We jump another capitol  
Flat on our faces  
And that's how we play  
Replay  
Let me see your G faceYou're the captain  
Now you're in control  
Your ship is sinking oh so slow  
Too late for promises now  
All those white girls dance around and sing  
Head to toe  
And gathering  
Yeah, we play  
Replay  
Let me see your G Face  
Into the deep we go  
Just how low  
We'll never know  
You look to drag us down  
Lost a bit of aftertaste  
Waking in a window space

Yeah, we play  
Replay  
Let me see your G FaceThrow your tips on the table  
And let it ride  
When the sun comes up  
We won't remember tonight  
We jump another capitol  
Flat on our faces  
And that's how we play

Replay  
Let me see your G faceThrow your tips on the table  
And let it ride  
When the sun comes up  
We won't remember tonight  
We jump another capitol  
Flat on our faces  
And that's how we play

Replay  
Let me see your G faceLet me see your G face!Another soldier  
And they sit and kid  
You're looking good  
But you're feeling the pressure  
Another day  
Another cut to the head  
We look inside  
Before they left you for dead  
Another soldier  
And they sit and kid  
You're looking good  
But you're feeling the pressure  
Switching geek  
Put your body in check  
And that's how we play

Replay  
Let me see your G face (G face! G face!)Now a pick a place  
A face - it needs it  
Same poles standing  
Like masturbationThrow your tips on the table  
And let it ride  
When the sun comes up  
We won't remember tonight  
We jump another capitol  
Flat on our faces  
And that's how we play

Replay

Let me see your G face  
Throw your tips on the table  
And let it ride  
When the sun comes up  
We won't remember tonight  
We jump another capitol  
Flat on our faces  
And that's how we play  
Replay  
Let me see your G face  
Let me see your G face! (Let me see your G face!)  
Let me see your G face! (Let me see your G face!)  
G Face  
Let me see your G face
