## I Love You This Big

## **Scotty McCreery**

I know I'm still young But I know how I feel

I might not have too much experience

But I know when love is realBy the way my heart starts pounding

When I look into your eyes

I might look a little silly

Standing with my arms stretched open wide love you this big

Eyes have never seen this big

No one's ever dreamed this big

And I'll spend the rest of my life

Explaining what words cannot describe but I'll try

I love you this bigI'll love you to the moon and back

I'll love you all the time

Deeper than the ocean

And higher than the pines'Cause, girl, you do something to me

Deep down in my heart

I know I look a little crazy

Standing with my arms stretched all apartI love you this big

Eyes have never seen this big

No one's ever dreamed this big

And I'll spend the rest of my life

Explaining what words cannot describe but I'll try

I love you this bigSo much bigger

Than I ever dreamed my heart ever would

I love you this big

And I'd write your name in stars across the sky

If I could, I wouldI love you this big

Oh, eyes have never seen this big

No one's ever dreamed this big

And I'll spend the rest of my life

Explaining what words cannot describe but I'll try

I love you this bigI love you this big

Oh, eyes have never seen this big

No one's ever dreamed this big

And I'll spend the rest of my life

Explaining what words cannot describe but I'll try

I love you this big
