

# Garden

## Magnapop

On the way near a truck stop  
That's behind my evil haven  
There is a garden, he is a garden Are you mad yet? Can't connect it  
When you try to do you know?  
He is evil, you are mad  
Are you mad yet? Known a comfort, known a mia  
Known a scary ancient feeling  
He is a garden, he is a garden Are you mad yet? Separate it  
Do you know what they do?  
When they say it feels like comfort  
I can't find it, tried to run  
But I'm the only one Sedentary, lonely contact  
No connection, fee or feeling  
He is a garden, he is a garden Scrap it all before summer  
Kill the person that you fight with  
Remain single there your strength is  
Live for freedom not for struggle He is a garden, he is a garden Scrap it all before summer  
Kill the person that you fight with  
Remain single there your strength is  
Live for freedom not for struggle
