Cry Wolf

Castlecomer

You couldn't wait for answers
You just had to try those wings
And all your happy-ever-afters
They didn't mean a thing
So I'm not gonna try at all
To keep you from the flame
Just remember not to call my name
When you cry wolf
Once too often
You cry wolf
No, I won't come knockin'
You cry wolf
I won't hear you anymore
If you start to stumble
If you start to crack
If you're feeling humble
Don't look back
When you cry wolf
Once too often
You cry wolf
No, I won't come knockin'
You cry wolf
I won't hear you anymore
You can try but you can't get me into the fire
'Cause I'm all out of sympathy
And, baby, I can't walk this wire
Find yourself somebody new
To catch you when you fall
'Cause I got just one thing to say to you
And, baby, that's all
When you cry wolf
Once too often
You cry wolf
No, I won't come knockin'
You cry wolf
I won't hear you
You cry wolf
Well, once too often
You cry wolf

No, I won't come knockin'
You cry wolf
I won't see you
So you cry wolf
Once too often
Cry wolf
On no, I won't come knockin'
If you cry wolf
I won't see you
'Cause you cried wolf
